---

Its been summer .... we are enjoying the boys and Nick can not sit still, so Christian is always on the go with his Dad. Nonetheless, Nicky has been battling an ear infection for over 3 1/2 weeks in his left ear since the tube was removed. Endless weeks of meds is just no fun for him. He also caught a virus type cough among the 3 bacterias that he came up positive for from the ear culture. Its not easy trying to let him swim and yet he can have no water get in his ears. Thankfully his spirit hasn't been effected much by these both illnesses that could have taken away his energy.

We have still managed to stay out patient with no fevers or hospital stays! Thank you Lord. As mentioned over a month ago that Nicky would need an MRI to follow up with the inflammation in his spine on the last scan. After the run around from U of M it is scheduled for July 31st at 8am - we ask that you please pray this is gone, the idea of another procedure or surgery is just not something we want to think about. So please pray it is clear and we can rest until his next St Jude scan. I am a little nervous allowing anyone else to sedate him because St Jude spoils us and I hold him until he is asleep.
